

**BLAST OFF with Highlands
this summer!**

Beginning in June, astronauts of any age can participate in mini-space missions as they encounter the profound truths of the Word of God and have great fun at the same time!

Our Mini-Space Missions will be posted weekly leading up to our VBS week at the end of July. Astronauts may complete one or all of the Mini-Space Missions.

Parents can join our Facebook group “Highlands Summer Space Probe 2022” to access the mini-space missions and more information about our Space Probe VBS events. (Printed materials for your astronaut are available upon request when you preregister for Highlands Summer Space Probe 2022.)

Space Probe VBS Week

Each summer we have a blast during VBS week! We hope you join us!

Sunday, July 24th-Family Blast Off Event from 6:00-8:30pm

Join us for storytelling, crafts, food, & water games!

(Parents attend with their children to experience VBS)
